

BIODIESEL

SMALL-SCALE PRODUCTION WORKSHOP

Working with partners such as the USDA's Risk Management Agency, The National Center for Appropriate Technology, and Piedmont Biofuels Cooperative, Caleb Daniels has traversed the eastern seaboard spreading the word about Biodiesel. He specializes in Small and Farm Scale Production.

This course will cover the basics of Biodiesel: History, light chemistry, Hands-On lab scale production, oil collections, and equipment. We will make a 35 gallon batch of fuel as a class.

Lunch and coffee will be provided both days.

**2801 Clifton Terrace
Chattanooga, TN 37407**

Cost for this course is \$100

If you would like to attend the workshop but cannot afford the rates, please contact us so that we may accommodate.
